Warren L. Green, Esq.
President
American Bank Note Company
70 Broad Street
New York

My dear Mr. Green,

Relative to the only three matters in hand, which give promise, I write you.

POLAND

The delay in receiving advice from you which was, I have no doubt, due to faulty cable service, made it impossible for me to communicate with Mr. Tupalski before he left for London. He is expected back in a day or two when the negotiations will be resumed. As you have probably gathered from my cables, the smaller denominations have been placed with the Bank of France.

CZECHOSLOVAKIA

Due to the trouble in Hungaria, it has been almost impossible to get advice from them and as the authority of the financial commission is limited, progress has been slow. My friend, Dr. Val Stencek, the financial delegate of the Ministry, is sailing on the Rotterdam ~~for New York~~, March 31, bound for New York and Washington. I have given him cards to the Lotos Club and Metropolitan Club. When we ~~shall~~ get this contract, and there seems to be very good reasons we will, he is the man who

to Thurs

will sign the contract and handle the details. Pergler If you have any difficulty in finding him in New York, call up Mr. Charles ~~Plergler~~, at the Czechoslovakian Legation in Washington, and he will tell you how to find Stencek.

ROUMANIA

The likelihood of quickest results come here. My friend, Mr. Daniellopol, whom you will probably remember as being the Roumanian Minister to Washington for the past year and ahalf and who is also the President of the National Bank of Roumania, is handling the matter with me here and I hope to have pleasant news shortly after I receive the answer to the cable I sent you six days ago asking what you could do in the way of deliveries.

The mail from the Espagne is all in and the material which I need for Poland either does not seem to have been on board or is being held up in some way.

De Lima is up in Brussels opening the branch of the Guaranty Trust Company, where his address is 158 rue Royale. Louis Van Norman is at Bucharest. Crosby is still ~~at~~ the Riviera. down on Mr. Lamont is up at Spa with the Hun Financial Commission. Our old friend Cologeras, the former Ministro do Fazenda, is here on the Peace Commission and seems to think it likely he will return to his former office when he gets back to Brazil. Our old friend Pop Williams, Lose's father, is here on the Peace Commission. In fact the woods are full of those we know and some of them seem willing to help.

Very truly yours,

J. V. Bayley

April 3rd, 1919.

The Commercial Cable Company,

New York City.

Dear Sirs:-

We received this morning the attached cable from Joseph Bagley, Paris, in which you will note reference to a cable from Mr. Bagley said to have been dispatched March 22nd, which we have no record of having received.

Will you kindly investigate this matter at once and if possible let us have without delay the cable to which Mr. Bagley refers.

Yours very truly,

Asst. Manager Foreign Department.

Compagnie Française des Cables Télégraphique,

41 Broad Street, N. Y. City.

Dear Sirs:-

We have just received word from Mr. Joseph Bagley that on March 22nd he filed in Paris an important cable message, addressed "Urgent Banknote New York City".

We have no record of this cable having been delivered and wish that you would look into the matter and let us know if you have any trace of it.

Your prompt attention will be much appreciated.

Yours very truly,

Asst. Manager Foreign Department.

ROUMANIA

(For Mr. J. H. Bagley, Vice-President)

C. P. R. DUPLICATE SENT

April 4th, 1919.

Yesterday morning we received your cable reading -

> "Have you received and is there any answer to my cable March 22nd asking delivery possibilities one hundred fifty million Roumanian notes steel face and back only."

This surprised us very much as we have no record here of having received any cable from you on any subject dated March 22nd or subsequently; the last cable we received from you was dated March 20th and referred to Poland - this was acknowledged on the same day as received. We made immediate inquiries at the office of both the Commercial Cable Co. and the Compagnie Française des Cables Télégraphiques but up to this time have received no trace of the missing cable.

We also cabled you at once as follows -

> "Your cable 2nd just received. Cable March 22nd never received. Please repeat giving quantities and denominations. In future when cabling always send second message reading "Cabling today". "

---

and to this no reply has as yet been received.

Enlarging upon the request made in the above-mentioned cable, we would like to devise some system whereby we may become at once aware of the dispatch of important cables from your office. We believe that this can best be accomplished by your sending an entirely separate cable using the words "Cabling today" or "Sending important cable today" as you prefer. We also believe it would be advisable to number your cables in consecutive order and would suggest that you commence numbering your cables from "1" up upon receipt of this letter; upon receipt of the first cable from you bearing number "1", we will also commence

ROUMANIA - Sheet #2

(For Mr. J. H. Bagley, Vice-President)

April 4th, 1919.

numbering cables sent you from this office, starting also with number "1".

With reference to the proposed Roumanian issue, we assume that this will be made in the name of the National Bank of Roumania (Banca Nationala A Romaniei). From what we can gather here, this Bank issued notes prior to the war in denominations of 20, 100 and 1000 Lei, the greater part of the circulation being in 100 Lei notes. Since the war, apparently they have replaced the national coinage by notes of 1 Leu and 2 and 5 Lei. The 1 Leu note is very small - about 3 1/8" x 2 1/8" - and the notes increase in size in regular progression according to the denominations. We can find no reference to a 10 Lei note, although it is possible that this denomination is also issued.

Upon this somewhat meagre information, we are preparing layouts and will forward a model of one of the denominations on the next steamer on the French line, which is scheduled to sail about the 14th inst. It is impossible for us to get anything ready for the "Lorraine" by which we are sending this letter, as the mail closes at noon today.

Needless to say, we will do everything in our power to meet whatever conditions have been laid down regarding the first delivery of these notes. In view of previous promises regarding Poland, etc., it is impossible for us to give you anything definite in this letter without having more details before us but we will confer with you further by cable.

We may say quite frankly that we dislike the idea of preparing an important issue of this kind with only one printing on the face and one printing on the back and it is only on the understanding that time of delivery is so important that we consent to consider the preparation of notes without the necessary protective tints,

ROUMANIA - Sheet #3

(For Mr. J. H. Bagley, Vice-President)

April 4th, 1919.

The notes which we have here show a double series of numbers; if possible, we should like to avoid this method of numbering, which seems to be peculiar to the Bank of France and institutions administered along the same lines. We should like to number the notes in one serie for each denomination in the regular American style.

Yours very truly,

President.

Mr. Warren L. Green, President,
American Bank Note Company,
70 Broad Street, New York City.

Dear Mr. Green:

Shortly after six o'clock last night the messenger boy brought in an undated cable from you in answer to my cables of March twenty-second and April 2nd. In reply thereto I immediately sent you the following cable:

"BANKNOTE NEWYORK - SAME OR APPROXIMATELY SAME SIZE AS AMERICAN NOTES - JOSEPH BAGLEY"

You will readily understand that in the long interval between the time I sent the original cable and last night, it devolved upon me either to make some specific representations or to let the order go. In consequence I made the Roumanian Government a proposition, and in accordance with the obligations I assumed in the writing of that letter, I am committed to going to Bucharest, at the request of the Minister of Finance, in about three or four weeks time for the purpose of closing this contract in the event of the proposition meeting with his approval.

I will advise you as soon as I get anything further from Roumania, which will probably not be for ten days or two weeks, as travel is very slow and communication is difficult.

I regret to be obliged to advise you that I am very much afraid the matter with Poland if off, at least temporarily. As I cabled you some six weeks ago, time was of the essence and they were in a hurry to see these Bank of France notes. The mail from the Espagne was only delivered yesterday, and Mr. Tupalski is now over in London. While I have no word on the matter, I am very much afraid that he has already given these large denominations to the Bank of France.

As regards Czechoslovakia, I would say that I had an interview with Mr. Kafka and he tells me that Dr. Stencek, of whom I wrote you in a previous letter, is arriving in New York today, and has been vested with authority to negotiate with you for the currency emission. I should be rather interested, if consistent, in learning the result of your negotiations with Dr. Stencek, whom I have reason to believe is friendly to our Company and intends to make the contract with us.

#2 - to Mr. W. L. Green

This morning I had an interview with Dr. de Sahmen, whom you will recall was the former Minister of Finance in Russia, and who is the head of the Financial and Economic Counsel of the Russian Delegation to the Peace Conference. He is Novitski's old chief. As a result I sent you the following cable:

> "BANKNOTE NEWYORK - PLEASE CABLE WHAT DENOMINATIONS AND HOW MANY OF EACH RUSSIAN CURRENCY ALREADY SHIPPED STOP HOW MUCH IF ANY CONTRACTED BUT NOT MADE OR SHIPPED STOP HOW SOON CAN YOU START AND HOW FAST CAN YOU COMPLETE ANOTHER CONTRACT USING EXISTING PLATES AND HOW MUCH DELAY IF USING NEW DESIGNS - JOSEPH BAGLEY"

This pending contract is for the Siberian Government and I take it from the way the Doctor spoke that it is his understanding that Novitski or Ughet have already taken up this with you. The only fly in the ointment on this contract seems to be the matter of payments. It seems that the Siberian Government has plenty of gold and silver, but the matter of transportation, that is, of getting this coin out of the country, is one of great difficulty, and what they would like to do if they could is to get ninety days time, that is, ninety days from the making of the contract. However, I think it best at this time to merely confine ourselves to the possibilities of production, and I will endeavor later to arrange the financial end in some mutually satisfactory manner.

Then there is the Republic of Kouban, what one might term a still-born republic, covering a number of counties down in Asiatic Russia, southeastern part, I believe. They have need of currency and would like to place it with us, but on the matter of payment they seem a little bit lame. I have left the matter with them in a condition where if they can get some money we can probably get some of it.

There are also forthcoming issues of bonds from Serbia, Roumania, Czechoslovakia, and Poland, with which I am in touch and regarding which I will advise you a little later.

It will be appreciated if you will have Frank keep closely in touch with either Novitski or Poushkareff, at the Russian Legation in Washington, and also see Doctor. Stencek, whom he can get in touch with through Mr. Pergler of the Czechoslovakian Legation in Washington. Likewise, it wont do any harm if the Roumanian and Serbian Legations are quizzed on these bond issues.

I am indebted to you for your information on the Banque de L'Indo Chine, and felicitate you upon the success of your efforts.

Your letter of the seventeenth, relative to the Polish matter is perfectly clear, and I will take the matter up with Mr. Tupalski on his return from London next week.

The only thing in your communications which is not perfectly clear is the expression "no mint" in your cable.

Very sincerely,

DUPLICATE SENT

As already advised we cabled you on the 3rd inst. asking for specifications regarding the proposed Rumanian order. Not having received any reply by Saturday morning, the 5th inst., we drew up a cable outlining our best delivery according to the rather incomplete information in our possession. Just as we were about to send this cable we received one from you reading -

> "Please cable schedule STOP How soon after first shipment and how fast and what quantities and shortest possible time when can you complete shipment one hundred fifty million notes for Roumania steel face and back like American notes."

Although dated April 5th, we interpreted this as the original cable which you state was forwarded from Paris on March 22nd and after considering it we finally cabled you as follows:-

> "On basis of seven denominations size smallest note two and one-eighth by three and one-half inches each denomination increasing in size one quarter inch in depth and three-eighths inch in length making largest size three and five-eighths by five and three-eighths inches. No tint. One steel printing on face and one on back. Stock Vignettes on face on back no vignette. No special vignettes to be engraved. No watermark or special paper but using our regular planchette. Could commence delivery at factory about eight weeks after final approval models completing order about eight to ten months. Can cable prices upon receipt approximate quantities each denomination provided promises delivery and sizes are satisfactory. Since dictating above your apparently original cable just received. When you say American notes do you mean sizes as well as style."

We may say that careful inquiry at both the cable offices here failed to disclose any message from you dated March 22nd and it looks, therefore, as though there had been some delay on the other side.

On Monday, the 7th inst., we again cabled you as follows:-

April 11th, 1919.

"If notes are to be about American sizes would prefer to shorten a bit making actual size trimmed three by six and one quarter inches. Could commence delivery this size about eight weeks after receipt final approval of models in New York completing ten to twelve months. Could better final delivery if absolutely necessary Stop Would prefer sizes given in our first cable which we would like you if possible to make standard. Sending model Fifty Lei based on first size and model Twenty Lei based on size proposed in this cable by Rochambeau sailing fourteenth."

---

and on Wednesday, the 9th inst., we received cable from you, reading -

"Same or approximately same size as American notes."

Herewith, by registered mail, per S.S. "Rochambeau" we are sending you two sets of models for approval.

+ Ltr from Washington 4/6/32

The set marked "A" - 20 Lei^ follows the general American size and style of note; as you will see, it is a trifle narrower and about one inch shorter but in view of the size of the order and the urgent delivery required, we thought it well to make the notes this size as thereby we can increase our production very materially. We think you will agree that this makes a very neat, attractive and secure note. It would be our idea to print all the faces in the same color as this model (carbon blue) and we would utilize the same vignette and title throughout. This is a new vignette which has never been used before for any work and it is one of our most artistic subjects. We would vary the counters on either side of the vignette and also the four corner pieces making them distinctive in shape and in style of engraving for each denomination.

You will see that we have indicated on the left-hand side of the note the date, which we understand is typed by the Bank itself at the time of issue, together with a small number; this latter number could be placed on the

April 11th, 1919.

opposite side of the note in the corresponding position. We would prefer to number the notes only in one Serie, printing the same number in two places as indicated on the model; we have, however, left space for another Serie of numbers if this is required. Please do your best, however, to confine the numbering to one Serie as indicated on the model.

It is our intention, in case the denominations run from 1 Leu up, to make the 1 Leu back model rather plain with very little ornamentation; we will progressively increase the amount of ornamentation for each denomination, making the highest denomination the most elaborate. It is also our intention to print the back of each denomination in a separate color; this should provide ample security and at the same time properly distinguish different denominations for rapid handling and prevent raising a low denomination note to one of a higher denomination.

We will send you by later mail some impressions of the colors we would suggest arranged for use according to the relative quantities ordered of each denomination. From information obtainable here, we assume that the denominations to be prepared will be as follows: -

Un - 1 Leu
Doi - 2 Lei
Cinci - 5 Lei
Zece - 10 Lei
Doue Deci - 20 Lei
Cinci Zeci - 50 Lei
Una Suta - 100 Lei

In order to be prepared to commence engraving upon receipt of information from you by cable, we are making models of the above denominations. We have also taken photographs of the models which we are sending you by this mail.

RUMANIA - Sheet #4

April 11th, 1919.

As soon as you are in possession of any definite information, we would ask you to cable us promptly and we will immediately commence engraving.

As advised in our cable of the 7th inst., we also prepared models of the 50 Lei, Face and Back (marked "B") in size 3 3/8" x 5", which we are enclosing herewith. This forms part of a progression referred to in our cable of the 5th inst. which is in the usual European style and sizes. As these models were practically ready when your cable reached us on the 9th inst., we decided to send them along. Even though you may not require them for this order, it may be that they will assist you in connection with some other inquiry.

We need not tell you that we are watching this matter with the greatest possible interest and we hope very much that you will succeed in closing the order. We are prepared to cable prices just as soon as you can give us some idea as to relative quantities and denominations.

Yours very truly,

President.

DUPLICATE SENT

April 12th, 1919.

Supplementing our letter of the 11th inst., we beg to submit the following additional information:-

Paper - Enclosed you will find a sample of our special planchetted bank note paper, which we propose to use for this order. This sample has been cut the same size as the 3" x 6 1/4" model.

Colors - We are also enclosing samples of colors which we would suggest for the backs of the Rumanian notes. Taking the figure "9" as representing the largest quantity to be printed of any one denomination and "8" as the next largest, we have numbered the samples down to "1", which represents the smallest quantity of all. Please note that the P-3 Special Purple must be used only for the back of a note; under no circumstances can we employ this color in printing a note face. As a matter of record, these colors are as follows:-

(Color	#1 Green	Quantity No.	9(largest of all) - Use
("	#42 Bank Note Green	" "	"(this in preference to (42 B.N.Green if possible.
"	#17 Orange	" "	8(next largest)
"	#9 Blue	" "	7 " "
"	#62 Yellow	" "	6 " "
("	#12 Brown	" "	5 " " - Use this in
("	#13 Brown	" "	5 (preference to 13 Brown
"	#5 Olive	" "	4 (next largest)
"	#P 16 Red	" "	3 " "
"	#P 3 Purple	" "	2 " " - This color can only be used for printing on a bank note back.
"	#88 Red	" "	1 (smallest quantity) Would prefer to use this coloronly for bank note back although if strongly preferred it may be used for face.

RUMANIA - Sheet #2

April 12th, 1919.

Size - With reference to the models marked "B" referred to in our previous letter and also in our cable of the 5th inst., we give you hereunder a list of the various sizes of this progression. It is thoroughly understood that this will not now be required for the Rumanian notes but you may find it useful in case of some other inquiry:-

1 - (Smallest Denomination) 2 1/8" x 3 1/8" - Trimmed Note.
2 - 2 3/8" x 3 1/2" - Trimmed Note.
3 - 2 5/8" x 3 7/8" - " "
4 - 2 7/8" x 4 1/4" - " "
5 - 3 1/8" x 4 5/8" - " "
6 - 3 3/8" x 5" - " " (Size of models marked "B")
7 - 3 5/8" x 5 3/8" - " "
8 - 3 7/8" x 5 3/4" - " "

Mr. Warren L. Green, President,
American Bank Note Company,
New York City.

Dear Mr. Green:

As I cabled you on Saturday last, I am leaving on Friday night for Prague, Czechoslovakia, and when I finish there will go on to Bucharest, Roumania.

His Excellency, the Minister of Foreign Affairs of Czechoslovakia, conveyed to me personally on Monday last, telegraphic request of the Minister of Finance that I come out at once and arrange for the emission of notes, and on the same day Dr. George Danielopol, President of the National Bank of Roumania, Envoy Extraordinary and Minister Plenipotentiary from Roumania to the United States, and Chief of the Roumanian Delegation for the Conference of the Peace, conveyed to me a telegraphic request of the Minister of Finance of Roumania.

There is very little that I can write you about either one of these. As you know, the Roumanians want from 125 to 150 million notes, and prefer the American type. I am in hopes, however, of being able to add a multicolor to the face of their note.

As regards Czechoslovakia, I know absolutely nothing about it. As you know, I had several conferences with President Masaryk last Summer, and Fall in Washington, at which time he told me that when he was ready he would take the matter up with me.

Here in Paris I have had ten or twelve conferences with the Prime Minister and also with Dr. Stencek, but, so far as I know, quantities are still undetermined.

As I cabled you last Saturday, my address in both Prague and Bucharest will be care of the American Legation.

Both these countries will have a man in the United States to approve models, designs, etc., Stencek acting for Czechoslovakia, and Danielopol for Roumania.

I respectfully direct your attention to the fact that all cables will be sent for me by the Government, and will be received by the Government for me. I therefore counsel you to see that there is nothing in these

cables that the wide, wide world cannot see.

About all you can do to help me is to see that I get good quick action on my cables, because it is going to be absolutely impossible to communicate to you by letter on account of bad mail facilities, and the other way that you can help me is to ask our beloved Treasurer to take the rubber band off the roll.

Your letter of April eighteenth, relative to the Banque Belge pour L'Etranger, together with various enclosures and photographs, arrived last night, and I immediately telegraphed Eric to come on over tomorrow, as it is quite impossible for me to attend to this Belgian matter, and Eric can do anything that I can do up there and probably do it better. While he is there I will have him make a report and send it direct to you on conditions in Belgium.

Perhaps I have not made the situation quite clear as regards to conditions under which I go to Czechoslovakia and Roumania.

I go to Czechoslovakia as a result of cable communication between the Prime Minister here, and the Minister of Finance there, at whose request I am going with the understanding that the business is to be placed with us.

I am going to Roumania as a result of telegraphic correspondence between Mr. Daniellopol here, and the Minister of Finance there, at whose request I am going for the purpose of making a contract for their emmission of notes. In other words, this is not a missionary trip, and I am not going there to see if I can close up, but rather to make them and bring them back.

I make this explanation so that when you are committing yourself to deliveries, you will understand that both orders are coming, and while I have not committed you in any way as regards Czechoslovakia, I have committed you in Roumania to the completion of their contract of from 128 to 150 million notes in from seven to ten months, which I have no doubt you will find no difficulty in doing.

Very truly yours,

P. S. - I have received one sample of bank note paper.

Dear Mr. Green
or
Mr. Woodhull:

With reference to the last sentence in paragraph six of page three of the English copy of contract "three months (13 weeks) from the date of the approval of all the engravings" obviously means thirteen weeks from the approval of the last engraving, so if the going is bad take your time with the last engraving but take your time with the last engraving

In addition thereto you have the additional six weeks given you in the attached "secret treaty". If you fail down then they are out of luck as there is no penalty.

By far the most important thing in connection with this contract is getting the money. Please take the

Comme Votre Excellence l'apercevra de suite, ces prix sont les mêmes que ceux qui se trouvent dans notre offre du 1-er août quand il fut question de quelques impfessions en plus, et d'un terme normal pour la fabrication des billets de banque.

Comme c'était expliqué, l'entreprise de fournir cette quantité des billets de banque dans un délai si bref se rapproche aux limites de la possibilité physique, et nécessite un prix de fabrication énormément augmenté à cause de la nécessité de faire la plupart du travail pendant la nuit, aux jours des fêtes et les Dimanches.

Votre Excellence connaissant les conditions d u travail aux Etats-Unis, Elle comprendra que le travail qui dépasse les heures du jour exigé par la loi, n'est pas fait seulement à prix double et même plus, mais encore la hâte réclamée occasionne pendant la fabrication une perte à peu près double que celle normale, ce qui est énorme quand on considère la nécessité d'avoir chaque note une réussite parfaite.

LEGATION OF THE
UNITED STATES OF AMERICA

Bucharest, September 10, 1919.

J. H. Bagley, Esq.,

Paris.

My dear Mr. Bagley:

I received yesterday the following telegram dated Paris September 2, 1919:

"AmLegation
Bucharest.

Paris September 2, 1919. Your letter August 23 stop. Please inform Minister Finance can not pay out remittance money until we have report from Major Goldsmith several outstanding matters are succesfully cleared up stop Also must have written directions pay money fixed dates cannot attempt construe contract ourselves stop Meantime will reserve this fund Bank Note Company account stop letter follows.

(signed) Taft -- Hoover."

This afternoon I saw Major Goldsmith who is here in connection with this matter of Roumanian remittance money and he tells me that he expects to have the whole thing cleared up in the course of a very few days. I have therefore not communicated to the Minister of Finance the sense of the above telegram. With reference to the request of Mr. Taft to have written directions issued by the Minister of Finance to make the payments on fixed dates, it seems obvious to me that this statement was based upon too cursory a reading of the letter of the Minister of Finance transmitted by me to Mr. Hoover on August 23 and Major Goldsmith agrees with me in this connection. Major Goldsmith says that he will be able to leave for Paris and London within a week and has no doubt that he will be able to have the payments made to the Company.

It seems that the main difficulty has been the delay of the Roumanian Government in putting through certain bank transfers which Major Goldsmith informs me are now being put through and he expects to have all the necessary receipts without much more delay so that the Relief Administration may

place the full credit at the disposal of the Roumanian government. Major Goldsmith hopes that he will be able to catch you in Paris and perhaps go with you to London and straighten out this matter finally. In anycase he has no doubt that the payments contemplated by the contract will be effected.

I wrote you a couple of days ago sending the letter to Belgrade and a copy to Prague informing you of the granting of my leave. Perhaps, however, the death of Mr. Green will have made it necessary for you to start immediately for home and I hope this letter will reach you before you leave this side.

With best regards,

Very sincerely yours,

American Chargé d'Affaires.

LEGATION OF THE

Bucharest, Roumania,

Dear Mr. Bagley:-

I was very sorry to learn from Young's telegram to you which was addressed here and which I forwarded immediately on receipt to Belgrade, that Mr. Green had died. Please accept my sympathy.

This sad event will doubtless change your plans and take you home earlier than you had expected. I hope we may soon apply the analogy of "El Rey se ha muerto; viva el Rey!"

Things have been happening rather fast since you left here. Meanwhile, the Army Courier Service hasstopped and the result is we have received no mail for a week and can hardly expect to get our stuff out regularly except through the courtesy of a colleague. That is why I am sending this to Paris in the hope that it will reach you more safely, if not sooner, than otherwise.

I hope to hear something before the middle of this month about my leave and will advise you as soon as I do. In the meantime, I should be very glad to receive a line from you concerning your probable movements in the next few weeks.

With best regards, believe me,

Very sincerely yours,

arest, September 9th 1919.

Mr. Joseph H. Bagley,
American Consulate,
Prague.

Dear Mr. Bagley,

Since your leaving here I feel very forsaken. You know that I always was afraid of something turning up which would prevent me from going to the States. My worries were well founded because although the Minister has promised me to send me with the mission to the United States, and although he told me to get ready for the trip, this a few days after you left Bucarest, he later told me that his intention was not to send me to the States only for the bank note proposition, but especially for arranging financial relations for the Roum.Gov't.

Twelve days ago when I saw him he told me that my departure depends on a telegraphic answer which he expects from Paris regarding what was accomplished by the previous Roumanian Mission to the United States. He further stated that in his belief the said Mission had accomplished nothing and that therefore I would be sent after he received the said telegram, probably after ten or fifteen days. The Ministry is supposed to change tomorrow and my chances with the new Minister are very slim. On the other hand I was informed yesterday by Mr. Teianu, Sub-Director of the Public Debt, that the Mission - the Artist and two Engineers - are about to start. Major Goldsmith was kind enough to recommend me to Mr. Teianu and the latter promised to say a good word for me to the Minister.

From the above you can see that I am very much worried over the prospect of being sent to the States by the Roumanian Govt. Mr. Follmer, A very good friend of mine, who has kindly consented to deliver this letter to you, understands all about my present situation and can explain all to you in detail.

As I am now again working with Major Goldsmith in settling the remittance question with which I alone am familiar, and furthermore as I have been employed by the A.R.A. for the past eight months, I wonder if it is possible that I might be requested by the A.R.A. in New York to come to America in order to finally clear up the Roumanian remittance question.

If I come to the states for this last purpose I could at the same time be of great service to your company and to the Roumanian Government in settling the question of the credit needed for the printing of the banknotes.

You were so kind to me during your stay in Bucarest that I hope I am not asking too much when I beg you to do all you can to help me to realize my ambition of going to America. It is the biggest desire of my lifetime that I go to America and anything that you may be able to do to help me would be more than appreciated by myself and my family.

Please remember me to Mr. Gibbs, who was also very kind to me.
With kind regards from my wife and myself, believe me,

Yours very respectfully,

T R A N S L A T I O N

September 15, 1919.

Mr. Minister:

Referring to your Excellency's letter No. 64738 of August 23, 1919 with which Your Excellency sent me an order on the American Relief Administration to pay to the American Bank Note Company the sum of $667,350. to be forwarded to the American Relief Administration, I have the honor to inform your Excellency that I have just received from Mr. R. A. Taft, Counsellor of the American Relief Administration, a letter dated September 2, in which he states that the Relief Administration must have a special order for each payment that the Royal Government desires the Relief Administration to make to the American Bank Note Company, showing the date on which each payment must be made. Mr. Taft states that the form of the order which you sent through this Legation makes it necessary for the Relief Administration to determine the dates on which the payments must be made, which the Relief Administration does not consider itself in a position to do.

Mr. Taft desires, consequently, that Your Excellency will be good enough to send them a direct order more or less in the following terms:

"To the American Relief Administration:
Please pay to the American Bank Note Company, or its order, on receipt of this order the sum of
_____Dollars($); on October_____
_____Dollars($); on November_____
_____Dollars($); on December_____
etc., out of the funds in your hands resulting from the remittances of money to Roumania."

If Your Excellency wishes to make this order irrevocable this should be stated and the American Relief Administration should be authorized to give its acceptances to the American Bank Note Company for all the payments to be made according to the contract.

I will be very glad to forward the necessary orders to the American Relief Administration if Your Excellency so desires. Our courier leaves Wednesday morning and I would like very much to have these orders in order that I may forward them by the pouch which will be closed tomorrow, Tuesday afternoon.

Kindly accept, Mr. Minister, the assurances of my most distinguished consideration.

Mr. J. H. Bagley,

Dear Mr. Bagley:

With reference to my letter to you of September 10 I received on the 14th instant from Mr. R. A. Taft, Counselor of the American Relief Administration, a letter dated at Paris on September 2, 1919, in which he set out in greater detail than was the case in his telegram of the same date to the Legation, the form which he desired the Roumanian Minister of Finance to use in his order on the Relief Administration to pay your Company the amount contemplated by the contract of August 22. I enclose herewith for your information a copy of Mr. Taft's letter of September 2 as well as a translation of the order from the Roumanian Minister of Finance to the Relief Administration dated today which I am sending to Mr. Taft at the offices of the Relief Administration, 115 Broadway, New York City.

I was obliged to sit on the job for more than an hour at the Ministry of Finance to get this document properly shaped up so I hope that it is now in order. Incidentally Mr. Kiriacescu told me that the Commission would be leaving in about ten days from now and he asked me to write to our Embassy in Paris to get reservations after October 5 for them to New York as, he said, the Roumanian Legation in Paris would probably not be capable of this difficult task.

I have not yet heard when the Minister is to return but I expect it will be about the beginning of October. I hope so at all events.

With best regards,

Very sincerely yours,

American Chargé d'Affaires.

Dear Sir:-

Mr. Hoover asks me to acknowledge your letter of Aug. 23rd enclosing a letter from the Royal Roumanian Minister of Finance, requesting the American Relief Administration to hold at the disposal of the American Bank Note Company of New York the sum of $667,350. I have wired you today that we can make no payments from this fund until several outstanding matters regarding the remittances are settled by Major Goldsmith, now at Bucharest, and a satisfactory report from him obtained. I hope that this will be received within a short time; in the meantime, however, we must have a specific order for each payment which the Roumanian Government wishes us to make, with the dates on which they are to be made. The form of their present order requires us to determine the day on which these payments should be made.

I wish, therefore, that they would hand us a direct order in substantially the following terms:

"To the American Relief Administration:
Please pay to the American Bank Note Company, or its order, on receipt of this order the sum of
_____dollars ($_____) on October _____;
_____dollars ($_____) on November _____;
_____dollars ($_____) on December _____;
etc., out of the funds in your hands resulting from the remittances of money to Roumania."

If they wish to make this order irrevocable, they should so state and should authorize us to give our acceptances to the American Bank Note Company for all of the payments.

I should be glad if you would cable the American Relief Administration at 115 Broadway, New York City, through the State Department, when you have received the orders referred to and then forward them as promptly as possible to the New York office.

I wish to thank you for the trouble taken by you in this matter.

Yours very truly,

DUPLICATE SENT

Dear Sir:-

We received on the 8th inst. through the State Department at Washington a cable dated Bucharest, August 23rd via Paris August 29th, reading:

"For American Bank Note Co., 70 Broad St., N.Y. from Vice-President Bagley 11 twenty-third. Sending through State Department currency contract amounting $667350. payable 20% on signing contract and like amount every 30 days. Contract signed August 22nd. 27,700,000 notes in 4 denominations divided as follows. 13,000,000 of 10 Lei denomination, dimensions 12.8 x 8. 9,400,000 of 50 Lei denomination dimensions 15 x 9.2. 4,000,000 of 200 Lei denomination dimensions 17 x 10.4, 1,300,000 of 2000 Lei denomination dimensions 19 x 12. Sizes approximate only. Your best facilities to govern. One steel printing face and back only on planchette paper no watermark. Complete shipment three months from approval of all engravings. No penalties. Roumanian government commission composed of Constantinescu, Debrevici, Costin, Abedi and their wives starting at once and will cable name of steamer which please meet. Am returning to Belgrade, thence Prague, Signed Bagley. Please inform banknote also that by a confidential agreement between Minister of Finance and Vice-President Bagley signed same date, Roumanian Government binds itself to consider extension of five or six weeks time to complete delivery of notes as fulfilling the contract. Schoenfeld, Charge D'Affaires."

Immediately upon receipt of this cable, we sent you the following reply:-

"Cable regarding Roumanian order received. Congratulations."

Needless to say we are greatly pleased that you have been able to obtain this fine order from the Roumanian Government and we only await the arrival of the Commission to which you refer and of the contract itself , which we understand is to reach us through the State Department at Washington, in order to commence work on the models. Up to the time of writing we have received no information through any of the New York banks regarding the first payment but doubtless this will be made by the time the contract reaches us.

As Mr. Gullett will have told you, we decided last Spring at the time you asked for a promise of delivery on American sized notes to undertake the engraving of several denominations, utilizing the text of notes at present in circulation, which we were able to purchase here in New York. It is unfortunate for us that they have now reverted to the European size and style of note as we would have been in position to make very exceptional deliveries had it been possible for us to utilize the engravings already prepared. We take it, however, from your cable that the sizes mentioned therein are final and that it will be necessary for us to prepare entirely new models and engravings.

This order reaches us at a time when we have an immense quantity of work on hand and in course of preparation but we hope, with our large resources, to be able to take good care of the Roumanian Government and to satisfy them in every respect. We again warn you, however, that it may be rather difficult for us to take care of any additional contracts unless you can arrange relatively longer delivery periods and for our mutual protection we would ask that you confer with us from now on before entering into any

definite engagements.

Again congratulating you upon securing this order, we are

Yours very truly,

President.

It is agreed between the sender of the message on the face hereof, and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this Company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non-delivery, or mis-delivery of any repeated message beyond fifty times the extra sum received by this company from the sender for repeating such message over its own lines.

It is agreed that prompt and correct transmission and delivery of this message shall be presumed in any action for recovery of the tolls therefor, subject, however, to rebuttal by competent evidence.

This Company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals.

The sender must write before the address, and pay the charge on one word, for the letters LCF, LCO, or LCD, according to his declaration.

Gentlemen:- ATTENTION OF MR. JOSEPH CLAUDET.

Pursuant to the instructions of the Royal Minister of Finances of Roumania, letter #77389 of September 16th, 1919, we are enclosing our check in your favor for $400,410.00, which we understand represents the first two payments due to you under a contract you have with the Roumanian Government for the engraving of certain currency for them.

We hope to soon be able to advise you regarding the two next payments to be made in this contract, one on November 22, 1919 amounting to $133,470.00, and one on December 22, 1919 for a like amount. However, these payments depend upon our receiving receipts from Roumanian remittances, representing an amount sufficient to cover.

Kindly acknowledge receipt of check and oblige.

Dear Sirs:-

We are in receipt of your favor of October 27th, enclosing check for $400,410.00 - paid over to us in accordance with instructions received by you from the Royal Minister of Finance of Roumania, as per letter to you #77389 of September 16th,1919,for which please accept our thanks.

This amount covers the first three payments due under our contract with the Roumanian Government for engraving and printing certain currency for them.

In this connection we would respectfully call your attention to a clerical error in your letter - in which you mention that this money covered the first two payments. If you will kindly refer to the contract you will see that the same is covered in paragraphs A - B and C.,- leaving therefore two payments of $133,470.00 each - due on November 22nd and December 22nd,1919,respectively.

We take note that these two last payments depend upon your receiving receipts from Roumanian remittances, representing an amount sufficient to cover the same.

Yours very truly,

Gentlemen:-

ATTENTION OF MR. JOSEPH CLAUDET.

We have your letter of October 27th, in which you call our attention to a supposed clerical error in stating that $400,410.00 sent you in our letter of October 27th represented the first two payments under your contract with the Roumanian Government. You state that this should read the first three payments.

Whether the $400,410.00 constitutes either two or three payments, is a small matter of no real importance, but we wish to state that we made these payments to you under the authority of a letter from the Royal Minister of Finance of Roumania, rather than under your contract, which we feel we are not in a position to construe. According to the letter this $400,410.00 represents two payments.

Very truly yours,

Although we are most anxious to proceed with the preparation of the work in accordance with the terms of the contract - namely as stated " upon its receipt" - we are unable to do so owing to the fact that the Commission appointed by your Government, which has not as yet been heard

This model is satisfactory and you may proceed at once with the engraving of the King's head and of the Coat-of-Arms vignettes.

After consulting with Mr. Debrovitch, we have decided to make the following minor changes:

The 3 signature titles to be shown in a considerably smaller letter.

The red seal is also to be reduced in size and this is to be shown on the right hand side under the two signature titles.

The number should be shown thus - A000000 - on both sides.

Will you kindly have these changes made and then have the model O.K.'d by Mr. Petresco; it would also be advisable to have his name appear along side of the imprint in whatever manner he approves. After he has O.K.'d you will kindly have the model photographed and send it to me with two photographic prints.

RE: ROUMANIAN STATE NOTES

Referring to your visit to our office last week, we are glad to advise you that the engraving of the King's portrait in accordance with the design submitted to you at that time has been commenced.

In the meantime, we have been furnished by Mr. Dobrovici with the numbering scheme and Messrs. Petresco and Dobrovici have indicated the colors in which the respective denominations are to be printed.

The design for the 10 Lei Note has been altered according to the details discussed with you and we now only await the three signatures to be printed in facsimile on the face before finishing the model and presenting it for the final approval of the Commission. We would appreciate it, therefore, if you would kindly let us have the three signatures by return mail if possible.

RE: ROUMANIAN STATE NOTES

Acknowledging your favor of the 15th inst., we take pleasure in enclosing herewith a small sample of the Planchette Paper on which it is proposed to print the Roumanian State Notes which we are now preparing under Contract dated August 22nd, 1919.

This paper is manufactured exclusively for us by one of the oldest paper mills in America and is identical in quality, strength and finish with the paper supplied by the same mill for the notes of the United States Government, and is manufactured under the same conditions and under the supervision of the same personnel. In place of the silk threads appearing in the United States Government paper, small planchettes, or discs of colored paper, supplied by us to the paper manufacturer are woven into the fibre of the sheet in an irregular manner, thus making a distinctive sheet of paper and supplying additional protection against counterfeiting. This paper is made of the best materials obtainable, and our experience shows that it is the most

durable paper manufactured for this purpose.

Trusting that this will give you the information desired and awaiting your further commands, we are

Gentlemen,

In reply to your letter dated December 17, which reached me this morning, I beg to send you the enclosed signatures you asked for, viz:

I. Angelescu 1) of the Minister of Finance (Ministrul Finanțelor),

E. Gikan 2) " " Director of the General Book-keeping of State (Directorul Contabilitatii G-le a Statului),

A Panaitescu 3) " " Central Cashier of the Treasury (Casierul Central al Tezaurului).

Will you kindly acknowledge receipt of the above.

By this occasion I beg to ask you again to kindly establish, as soon as possible, with the consent of Messrs Dobrovici and Petresco the last details of the model I have examinated, so that the respective plate could be executed without delay after the final approval of the model. For this purpose I herewith beg to be furnished with 3 photos of the model, one of which will be approved by me and returned to you. I also beg you to inform me

./.

about the numbering scheme to which you have agreed with Mr. Dobrovici.

Concerning the colors I would suggest that - if it would not last too long to get the necessary materials - they be choosen after the plates are finished and after the reception of the paper, this in view of the fact that the colors depend on the constitution of the above.

During the next week when I will have the pleasure to see you in order to examine the final model of the face - and I hope also the back - of the 10 Lei note, we will have to establish generally from the kind of the designs, the approximate time of execution of all the plates, as I must inform our Ministry of Finance of all this, in the shortest time.

RE: ROUMANIAN STATE NOTES

We acknowledge with thanks your favor of the 19th inst. enclosing signatures to be printed in facsimile on the 10, 50, 200 and 2000 Lei Notes which we are at present engraving, as follows -

I. Angelescu - to appear under the title "Ministrul Finantelor"
R. Guian - " " " "Directorul Contabilitatii G-13 a Statului"
A. Panaitescu - " " " "Casierul Central al Tezaurului"

These signatures are being added to the model of the 10 Lei Face today and we hope to submit this model to you complete as to all details when you visit our office on Monday next, the 22nd inst.

We regret that Mr. Petresco's absence from the plant during the last few days has prevented our obtaining his formal approval of the model but as soon as he returns we will have him indicate his approval, after which we will photograph the model and furnish you with three copies as requested. At

that time, we will also explain in detail the numbering scheme and the selection of colors. Regarding the latter, we may say that in view of the quantity of material required it will be necessary to establish the colors at this time; we will be glad to submit samples on Monday and it is, of course, understood that proofs in the colors selected will be shown before any of the printing is actually commenced.

As soon as models of both faces and backs of the various notes have been approved, we will be glad to give you approximate date for the preparation of the engraving and of the necessary printing plates.

Report of Louis L. Coudert on visit to Crane & Co.'s paper mills, Dalton, Mass., with Mr. Georges Dobrovici, the Engineer of the Roumanian Commission

---

At Mr. Dobrovici's request it was arranged that he should visit Messrs. Crane & Co.'s paper mills at Dalton, Mass. Also, that I should accompany him. Mr. Constantinesco was invited both verbally and by letter to go with us but declined.

Thursday, December 18th - We took the 9:30 A.M. train to Albany, picking this route in order that Mr. Dobrovici might see the Hudson River. At Albany, changed trains arriving at Pittsfield, Mass. about 3:30 P.M. where we were met by Mr. Reuben Pierce, who took us to the Hotel Wendell where he had reserved rooms for us. Mr. Pierce then drove us to Crane & Co.'s office, Dalton, where we had a general talk with him and Col. Winthrop Crane.

Friday, December 19th - 16 Degrees below Zero. Driven in Col. Crane's car from the Hotel Wendell to Crane's office and then visited the mill nearest the office. Lunch at the Irving House with Messrs. Winthrop Crane and Pierce. In the afternoon went over the "Government Mill". Mr. Dobrovici said that he knew Perigord-Masure's mills in France very well - also other paper mills in Europe; that he had never seen anything of ~~the kind~~ like Crane's, so large and so fine. He was much surprised to see that the rags were all new and that colored pieces were carefully picked out. Said that in Europe they used old and also colored rags - that Crane's paper was much superior. He was surprised and much pleased in every way. As Mr. Dobrovici wished to visit Niagara Falls and the wood pulp mill there, Col. Crane arranged over long distance 'phone for him to visit the wood pulp mill and also endeavored to secure train accommodations, taking a great deal of trouble, telephoning both Boston and Albany. Owing to the holiday rush no sleepers could be had and visit to Niagara was therefore abandoned.

Saturday, December 20th - With Mr. Dobrovici took the 7:21 A.M. train for New York where we arrived 12:27 noon. Mr. Dobrovici expressed himself over and over again as delighted with his trip, of the warm reception given him and of my making the trip with him. He also repeated that Crane's paper was much superior in wearing qualities to European paper.

RE: ROUMANIAN STATE NOTES

We return herewith model of 10 Lei face approved by Mr. Petresco which was submitted today to the Chairman of the Commission and found satisfactory.

Will you kindly photograph the model as it stands, taking care to see that the outline of the trimmed note is plainly indicated. Kindly send me by Monday, the 29th inst., if possible, four prints of this photograph.

The Chairman of the Commission asks that the three signatures be shown at a slight angle in much the same way as the original specimen signature of the Minister of Finance. You might make this alteration on the model before photographing it; it would also be well to add another seal under the two signatures at the right, as you will understand this is to appear in both places.

You will understand that you will now proceed with the engraving of the 10 Lei face. I did not have an opportunity to show this model to Mr. Major or to Mr. Woodhull and so would ask you to please return it as soon as convenient so that we may also obtain their approval.

Monsieur le Chargé d'Affaires de Roumanie,

Monsieur:-

Nous avons l'honneur d'accuser réception de votre lettre du 27 ct. dans laquelle vous nous demandez, à la requête du Ministere des Affaires Etrangères de votre Gouvernement, quel progrès nous avons fait dans l'exécution de la commande de billets de banque qui nous a été confiée par lui et vers quelle date nous pensons pourvoir commencer nos expéditions.

La Commission chargée par Mr. le Ministre des Finances de la préparation de dessins etc. nous a jusqu'ici fourni un seul dessin: celui de la face du billet de 10 lei. Ce dessin qui comprend un portrait du Roi et un arrangement de l'ecusson roumain est actuellement en cours d'exécution entre les mains de nos meilleurs graveurs. Nous estimons que la gravure de la face du billet de 10 lei sera achevée vers fin mars et que, si les épreuves en sont approuvées sans retard par la Commission, les plaques respectives seront prêtes pour l'impression vers la fin du mois d'avril.

Vu qu'aucun dessin ne nous a encore été fourni pour le dos du billet de 10 lei ni pour les autres coupures, vous comprendrez qu'il nous est impossible à l'heure qu'il est de prévoir quand la première expédition pourra s'effectuer.

Si le dessin approuvé pour le dos du billet de 10 lei nous était livré d'ici quelques jours, il est probable que nous pourrions achever la gravure et la préparation des plaques relatives à cette coupure de sorte à pouvoir en commencer l'impression dans le courant du mois de mai, ce que nous permettrait d'en faire un premier envoi vers fin juin ou commencement de juillet.

Il nous faudra cependant être en possession de tous les dessins approuvés avant de pouvoir établir une date relativement précise.

Nous vous saurions gré en transmettant cette information à Mr. le Ministre des Affaires Etrangères de vouloir bien la supplémenter de notre assurance que rien ne sera négligé de notre part pour activer dans la mesure du possible la marche des opérations multiples auxquelles est soumise une commande de ce genre.

Veuillez agréer, Monsieur l'expression de notre considération distinguée.

Le Chargé d'Affaires de Roumanie

Roumanian Legation,

Dear Sir:-

We acknowledge your favor of the 27th inst. in which you ask us to furnish at the request of the Minister of Foreign Affairs at Bucharest information regarding the progress of the work and the probable date at which the first lot of bank notes under our contract with the Government will likely be forwarded to Roumania.

The Commission entrusted by the Minister of Finance with the preparation of designs, etc. has to date furnished an approved design for the face of the 10 Lei Notes, which is now being engraved. This design includes a portrait of the King and an arrangement of the Roumanian coat-of-arms, both of which must naturally be engraved in our best style and by our best people. We estimate that the engraving of the 10 Lei Face will be completed toward the end of March and, provided the proofs are promptly approved by the Commission, printing plates will be ready for the press about the end of April.

In view of the fact that no designs have yet been furnished either for the back of the 10 Lei Notes or for the other denominations, you will see that it is impossible for us at this stage to give you any kind of accurate information as to when the first shipment of notes will be ready. If the approved design for the 10 Lei back should be furnished in the next few days, we could probably get the engraving completed and ~~this~~ have plates ready for press some time during the month of May, which would enable us to ship some of this denomination toward the end of June or early part of July. It will, however, be necessary for us to have the approved designs in our hands before giving any exact ~~information~~ date.
